\$1.50 per Year

ORPHANAGE

The above picture shows the Loyal Protestant True Blue and Orange Home for children now under construction at New Westminster. This home is open to orphans from all parts of the Province and during its career of 17 years has given shelter and succor to about 700 children. It is doing magnificent work in caring for the unfortunate orphan and guiding them until they are able to make their way in the world. The new Home is planned for the ultimate accommodation of 200 children.

The cost of the new Home will be \$85,000, and the Directors desire to have it free of debt when completed. To do

SUMAS CO-OPERATIVE ELECTS BOARD OF DIRECTORS

The first general meeting of the Sumas Co-operative association was held in the Municipal Hall, Whatcom Road, on the 25th inst., with a fair attendance.

The meeting was called to order by President J. F. Cook. Minutes of last meeting read and adopted.

The meeting by resolution set the number of directors to be elected at five. The election of directors was then proceeded with, and resulted in the election of the following: J. F. Cook, C. A. Lamson, N. Hill, O. Blatchford and E. H. Boley.

A discussion took place regarding business arrangements and correspondence was read dealing with the marketing of the grain crop for 1927, after which the meeting adjourned.

Immediately following the general meeting the newly elected board of directors met and selected their officers, as follows: president, J. F. Cook; vice president, N. Hill; secretary, S. A. Cawley.

Arrangements were made regarding banking and other matters affecting the welfare of the association, after which the meeting adjourned.

HUNTINGDON

Mr. J. K. Bates of Huntingdon returned home last week from a trip to Montreal. His brother, Alec. Bates, drove his car all the way from Ottawa to Vancouver and return, making side trips that totalled a mileage of over 9,000 without any mechanical trouble, only to have his machine break down on a busy street of Ottawa on his return.

Mrs. E. C. Plaxton has been attending a family re-union at the home of her sister, Mrs. Gibson, in Bellingham. Master Lloyd Monk of New Westminster is visiting his aunt, Mrs. Logan at Huntingdon.

Ellene and Edith Davis are visiting Mr. and Mrs. J. B. Williams at New Westminster and will accompany them on a yachting trip to Powell River.

Miss Margaret Chapman, late of the Hotel Cecil, London, England, has rented the room in the rear of the former Bank of Montreal building, with the intention of opening a school of modern ballroom dancing, beginning about September 19th.

H. G. Myhre, auctioneer, has reserved Tuesday, September 13, for an auction sale at the farm of Mr. R. Beaton, one mile N. W. of the Village of Matsqui; when he will dispose of Mr. Beaton's entire herd of Ayrshire grade cattle, a quantity of machinery and other articles.

Children Admitted Free

To Roundup on Saturday

Boys and girls of fifteen and under will be admitted free to the Sumas Roundup on Saturday of this week. Tickets have been printed and distributed to the kiddies, but any youngster who has been missed may get one at the gate of the arena on Saturday before the show starts.

A pony will be given away free to some lucky boy or girl on the grounds Saturday.

MT. LEHMAN

Mr. and Mrs. Gillis have returned home from a trip to Calgary.

Mrs. Macdonald of Iowa, with her daughter, son and daughter-in-law, has been visiting her parents, Mr. and Mrs. D. Nicholson, sr. Mrs. Macdonald has not visited her home here for more than 20 years.

Mrs. D. Macaskill and son have returned from visiting at Bowen Island.

Mrs. Bennett of Glacier, Wash., has been visiting her mother, Mrs. Fearn.

Mr. C. B. Gamsby spent the week at Langley Prairie, the guest of Mr. and Mrs. Wm. Harrower.

Mrs. M. Greig and Mr. A. Young of County Line were visitors at the home of Mr. and Mrs. Gillis on Friday.

Mr. Percy Pierce has returned home from the Skeena, after three months in that region.

Miss Margaret Mackinnon spent last weekend at White Rock, the guest of Mrs. John Croy, sr.

The Sewing Circle of the United church held its regular meeting Wednesday afternoon at the home of Mrs. L. Coghlan.

The Ladies' Aid society will resume meeting after two months' vacation, the first meeting to be held in the Memorial hall on Wednesday, September 7.

The United church, which has had a month's vacation, will meet on Sunday morning, September 4, at the usual hour, of ten o'clock.

NEW ASSOCIATION GETS

GOOD PRICE FOR OATS

Until halted temporarily by wet weather, the oat harvest has been proceeding apace on the marginal lands of Sumas Prairie, where the farmers are cropping the area that was flooded before the dyke was built. Several threshing outfits have been operating in the district.

The farmers this year are pooling their crop through a newly formed co-operative agency, and are promised a price of \$32.50 a ton until the end of September. This is said to be the best price obtained for oats in years, and many have expressed themselves well satisfied with the organization.

Highland Gathering in the Canadian Rockies

1. Regimental Piper 1828 by canoe. 2. Scots in Canada—painting of Sir George Simpson on ceremonial inspection of Hudson Bay Co's posts in 1828 by canoe. 3. David Thompson, one of the artists.

One of the first subjects concerning Canadian events of late that the Right Hon. Stanley Baldwin touched on after his arrival in Canada recently was the Canadian Folk Song and Handicraft Festival held at the Chateau Frontenac last May. Premier Baldwin observed that such a festival was invaluable in preserving and reviving the old-time customs, songs and handicrafts, indigenous to Canadian life and particularly the province of Quebec. On the heels of this musical success comes the announcement that a Scottish Gathering and Song Festival is about to take place at Banff, September 3 to 5. Scottish communities are looking forward with keen interest to the coming festival to which the Prince of Wales has given his patronage.

Scots in Canada played a memorable part in the development of the country, their names having prominence in many historic engineering, fur trading and exploration enterprises—such men as Fraser, MacKenzie, Thompson and many others in the past generations who have penetrated the mountains of the west. Here in these same mountains, unrivalled in the world for beauty, the Scottish Gathering and Festival will be held. Activities will centre around the Banff Springs Hotel that stands on the side of Sulphur

mountain commanding a "million dollar" view of the Bow Valley.

The historic character of the Scot has been carried down from generation to generation in his music. The lyrics and ballads that are sung with never-tiring enthusiasm will be heard to advantage at the coming festival.

The singers themselves will be good Scots of no mean artistry. J. Campbell McInnes is a Highlander, now settled in Toronto, who is a recognized master in the interpretation of the old ballad. His rendering of "The Two Sisters of Binorie" is one of the great things in the history of song. Joanne Dussseau, although her name is French by marriage, won her first success on the concert stage under her maiden name of Ruth Thom and hails originally from North-east Scotland. Davidson Thomson first saw the light in Perth and now directs the famous Grace Church Choir in Winnipeg, triumphant shield-winner at many Western Festivals. He himself has shone as a star at many Festivals in the United States as well as Canada. Ruth Matheson is a young contralto of Winnipeg who is winning recognition far outside her native city for her interpretation of Scottish songs. She comes of the stock of the Kildonan settlers. Norman Cameron is a

Hebridean who sings the Gaelic with a Gaelic tenor—none sweeter. And with him are Hebridean folk-singers who sing with indescribable charm the exquisite songs of those Western Islands. The Canadian Pacific Calgary Male Voice Choir will give choral renderings of well-known Scotch songs.

With the dances—the Highland Fling—the Seann Truibhas—the Sword Dance—the Reel—and with Marches goes of course the music of the bagpipes, not forgetting the pibroch, otherwise spelt as pibroch, of which not so many are masters. It is to the Highland Regiments that we owe the chief credit of keeping alive this stirring music, the sound of which stirs the blood as no other music can. By courtesy of the Canadian Minister of Militia each of the seventeen Highland Regiments in Canada will have the opportunity of being represented by its best regimental piper in an endeavor to secure a beautiful trophy offered by E. W. Beatty, Chairman and President of the Canadian Pacific Railway, through whose interest and generosity the organization of this Highland Gathering at Banff has been made possible.

Scottish games and contests of all kinds will be a feature of the three-day Gathering.

Mr. and Mrs. W. Coultts, accompanied by D. McCallum, motored to Ladner on Saturday, returning Sunday. Lillian

Coultts, who has been spending a week with friends at Ladner, returned home with them.

The Bridge Pavilion was a popular spot for dancers on Friday last, when a jolly event was held.

"Nothing Can Stop Us."

Canada has been honored in this year of its Diamond Jubilee by another visit from the Prince of Wales. On this occasion, however, he is accompanied by his brother, Prince George, and by the Right Honorable Stanley Baldwin, Prime Minister of Great Britain.

The significance of this visit will not be lost upon the people of Canada, nor, in fact, upon the British Empire as a whole. The ease with which the people of Canada and the British Isles can exchange visits nowadays is resulting in a more intimate knowledge of each other and is developing a community of interest quite lacking not so many years ago. Now it is almost as easy for the people of Canada and Britain to visit each other as it is for Canadians in the Maritime Provinces to visit their fellow citizens in British Columbia.

The fact is this being made known to the world that Canada occupies a strategic position in the British Commonwealth of Nations. Its geographical location in the Empire, constituting it the main highway between the Occident and the Orient, must inevitably result in this Dominion being the real centre of the Empire in the not so very distant future. And the development of trans-oceanic travel by air will only serve to emphasize Canada's important place in the Empire.

Thus, for the first time in history, a Prime Minister of Great Britain is able during his tenure of office to leave Britain and make an official visit to one of the overseas Dominions. He could not possibly spare the time to visit any of the other Dominions. It is an epoch-making event.

It is apparent that Mr. Baldwin, himself, is cognizant of what the future has in store. In an address before the Montreal Canadian Club shortly after his arrival in this Dominion, Mr. Baldwin spoke in such optimistic terms of Canada's future possibilities and greatness that, voiced by a native Canadian, would have left the latter open to possible ridicule and criticism as being bombastic.

Mr. Baldwin sees no limit to the greatness of Canada's future. "Nothing can stop you," he declared. Canada, he went on to say, must progress with the world's progress with the result that some day "Canada may be the greatest nation in the world."

Sixty years of Confederation have proven to Canadians and to the world what can be accomplished, and have established the untold possibilities of the Dominion in all those qualities and resources which go to make a nation great. Another sixty years may easily see Canada with a larger population than the British Isles, with manufacturing being carried on with a magnitude as yet only dreamed of, and surpassing in output the great industries of the Old Land, while at the same time supplying in much greater degree than today the food requirements of the world.

Canada is only now getting into its stride. It is just on its feet, and on the eve of a development and expansion in all the major activities of the world which will establish a new world's record in national growth. Canadian foundations have been well and truly laid. They are strong enough upon which to erect a magnificent structure, and it only remains for the Canadian people to realize its possibilities and devote themselves with patriotic devotion and untiring energy to the inspiring task before them.

The days of pessimism are past. There never was any real cause for them, but this Jubilee year has, there is reason to believe, finally convinced the people of the Dominion of this fact. There has been a great awakening of our people, and a new national spirit has been evoked, a new confidence born, and a pride and courage developed which in a comparatively few years will work a veritable revolution in the growth of this Dominion.

Canadians will do well to keep ever in mind the slogan of the National Diamond Jubilee Committee "Canada Our Country," and to accept as their watchword the words given to them by Premier Baldwin, "Nothing Can Stop Us." In making Canada great and prosperous they will be rendering the finest possible service to the Empire as a whole and confer benefits upon the world at large, because, above all things, the Canadians are a home loving, peace loving people. They have the true conception of the new Internationalism which believes in the advancement of all peoples as the true policy of a better world.

Sheep Ranch At Invermere

A movement is on foot to develop a large sheep-raising industry in the territory about 30 miles south of Invermere, B.C., contiguous to Findlay Creek and Canal Flat. A wide-open, undisturbed range lies in that part which since the cattle industry has flagged, has rarely been occupied except by wild horses common to that part.

Saskatchewan Cow Makes Record

G. E. Day, Secretary Dominion Shorthorn Breeders' Association, Guelph, Ont., reports that Darlington Mable (204089) a cow owned by F. S. Cooper, Gravelbourg, Sask., has just completed a 305-day record of 5,617 lbs. of milk and 249 lbs. of butter-fat.

Duties of other people are always doubly clear to us.

Creates New Walking Record

Jean Linder, of Switzerland, walking the 315 miles from Paris to Strasbourg in an elapsed time of 72 hours, one minute, has created what is claimed as a record for long distance road walking. His actual walking time was 66 hours, or an average of nearly five miles an hour. He beat 45 other walkers, finishing three hours ahead of his nearest competitor.

Alberta Coal For B.C.

Mr. George R. Pratt, fuel engineer for the Alberta Government, reports that there are strong possibilities of establishing a satisfactory market for Alberta coal on the Pacific coast, due, to some extent, to the creation of bunkering facilities at Vancouver.

If a man is too lazy to think for himself he should get married.

Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is especially prepared to relieve infants in arms and children all ages of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and, by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep.

To avoid imitations, always look for the signature of *Dr. H. C. Fletcher*. Absolutely Harmless—No Opiates. Physicians everywhere recommend it.

Unique Device Patented

Rollers At Railroad Crossing Will Prevent Accidents

As a means for preventing automobile accidents at railroad crossings, an Ohio inventor has patented a roller device which has proved effective under tests, says Popular Mechanics Magazine. There are two sets of rollers, each eighteen feet long, installed in the highway near the rail approach. They revolve only one way and when the automobile strikes them, as a train is approaching, they turn, keeping the car from going forward. When the train passes, a switch locks the rollers so that the auto can proceed.

Why Hobble Along On Sore Corns?

Don't cut corns with an old razor. Infection followed often by death may result from paring corns with an infected knife. Quick safe relief comes from using Putnam's Corn Extractor. It afflicts with corns, calluses or sore footlumps, use "Putnam's"—it's reliable and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use Putnam's Painless Corn Extractor. 25c. at all dealers.

An Overcrowded Country

Population Of England Is 700 To The Square Mile

It must be confessed that we dwell in an over-crowded country. The population of England, apart from Wales and Scotland, is more than 700 to the square mile. We are four times as crowded as India and nearly three times as congested as China, we are twice as crowded as Germany or Italy, and nearly four times as France. Nevertheless, since 1910, we have built some 800,000 houses at a capital cost to the public purse estimated to be about £147,000,000—and still State subsidies are being given towards uneconomic housing schemes, which fill our suburbs and encourage builders to erect ugly villas along our country roads.—B. S. Townroe Edinburgh Review.

THE BEST MEDICINE SHE EVER USED

Dr. Williams' Pink Pills Highly Praised By a Quebec Lady

Mrs. David Logan, Theford Mines West, Que., gives unstinted praise to Dr. Williams' Pink Pills for the good they have done in her family. Mrs. Logan says:—"I have been a user of Dr. Williams' Pink Pills for many years, as occasion required, and have always found them a most reliable medicine. My husband, who was recovering from an attack of typhoid fever, and was in a very weak condition, took the pills, and through them gained health and strength. My daughter was in a run-down condition, and was forced to discontinue work. Again Dr. Williams' Pink Pills were resorted to and she was soon restored to excellent health. Then my eldest boy had an operation performed for adenoids, which left him in a weakened condition. Once more Dr. Williams' Pink Pills were tried, and he was soon in excellent health. So I can truly say that more than satisfaction has been obtained by the use of this medicine. The pills have done more good in my home than hundreds of dollars worth of more expensive medicines."

You can get these Pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Movies Filmed In Rockies

Spectacular Stunts Of Aviation Over Lake Louise

The most spectacular event ever attempted in the Canadian Rockies and one which attracted every guest to the front lawn of the Chateau Lake Louise, was successfully carried out by two Canadians, ex-Royal Air Force officers, W. H. Williams and E. C. Bigelow, who for half an hour performed a number of flying stunts over Lake Louise and the Chateau. Zooming down on the lake and dropping from the machine in parachutes were the features of the exhibition which was staged by the Fox Film Company in connection with their film, "Pyjama." This picture, which stars Olive Borden and is directed by Jack Blystone, is now being made in Alberta.

Encourage Vegetarian Weddings

"Vegetarian weddings are being encouraged by the French Society of Vegetarians. They have organized a series of functions where young lovers of vegetables can start their courtships. Opposites may be attracted to each other say some of the leaders of this movement, but the dinner table is likely to become a battle ground if there be too great a difference in tastes.

Will kill many times more flies for the money than any other fly killer. Each pad will kill flies all day, every day, for three weeks. At all Grocers, Druggists and General Stores—10c and 25c per package.

Eight Ocean Airmen Brought Together

Aviators Entertained At Breakfast By Mayor Of Boston

For the first time since the Atlantic and Pacific flights which made them famous, eight of America's ocean-spanning aviators were brought together.

At a breakfast tendered by Mayor Malcolm Nichols at the Hotel Bellevue, Boston, Colonel Charles A. Lindbergh, who was given a tumultuous greeting to Boston, was joined by Lieutenants Lester J. Maitland and Albert F. Hegenberger, Pacific fliers, Commander Richard E. Byrd and his crew on the flight to France, Lieutenant George O. Noville, Bert Acosta, and Bernt Balchen, and by Clarence D. Chamberlin, who flew to Germany.

Mrs. Chamberlin was the only woman present. She sat next to her husband, Porter Adams, president of the National Aeronautical Association, was another guest.

For Scalds or Burns.—Dr. Thomas' Electric Oil is a standard remedy for the prompt treatment of scalds and burns. Its healing power quickly soothes the pain and aids a speedy recovery from the injury. It is also an excellent remedy for all manner of cuts, bruises and sprains, as well as for relieving the pains arising from inflammation of various kinds. A bottle in the house and stable saves many a doctor's and veterinary's fee.

Mr. Amery's Empire Tour

Will Visit Canada In January Of Next Year

Mr. Amery is now embarked upon his tour to the dominions, having sailed for South Africa from England on July 22.

During his stay in South Africa he will visit the High Commission Territories and Southern Rhodesia in addition to the Union.

Leaving Cape Town on Sept. 23, Mr. Amery will visit Australia, October 10 to November 17; New Zealand, November 22 to December 20; and Canada, where he will arrive about January 5 or 6. Mr. Amery is expected to spend a month in Canada before returning to England.

Mr. Amery's staff will consist of Mr. G. G. Whiskard, C.B., assistant secretary in the dominions office; Mr. G. Huxley, a member of the staff of the Empire Marketing Board, and Captain W. Brass, M.P. Mr. Amery is accompanied by Mrs. Amery, who is a Canadian—a sister of Sir Hamar Greenwood.

Teaching Empire History

Primary Schools Should Have Advantage As Well As Universities

Much has been done in recent years to make young Englishmen, at all events those whose opportunities lead them to the universities, reasonably acquainted with the growth of the Empire, its constitution and the methods of which it is governed or governs itself. But it is not sufficient that those, whether at home or overseas, who will be called upon to take a definite part in such government should be qualified to do so. Every voter should as far as possible, be so qualified, and, if this is admitted, it follows that the teaching of Empire history and affairs must be in the primary and secondary schools throughout the Empire as well as in the universities.

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Remover and get relief.

Better Class Of Immigrant

"I believe it is quite likely that the volume of immigration of a very good class of will grow much larger in the immediate future," said Hon. Robert Forke, Minister of Immigration, who has returned from England. While abroad, Mr. Forke visited the agencies of his department maintained in Great Britain, and also in the cities of Rotterdam, Antwerp, and Paris. He visited Norway, Sweden, and Denmark in connection with immigration matters and conferred with cabinet ministers in those countries.

For corns and bunions use Minard's Liniment.

New High Speed Ships

Will Cross Atlantic From Germany In Four and a Half Days

Vincent Astor, recently returned from Europe, brings news of interesting, high-speed transatlantic travel developed in Germany.

Within a short time German ships will cross in four and a half days. The cost of such high speed will be great even with modern Diesel engines, fuel consumption going up many times faster than a ship's speed.

But two of the high-speed ships will make as many trips across the ocean as three of their fastest competitors could make. That will make up for speed cost, saving 50 per cent. in ships and crews. And the short trip will draw the best paying customers, including the idle rich, to whom it does not make any difference how slowly they go. They think they are in a hurry and very busy, and willingly pay for speed.

Plan Scottish Dictionary

Ambitious Project To Be Carried Out In New York

Under direction of the Scottish Dialects Committee a new Scottish dictionary is to be issued. It will consist of from ten to fifteen parts, each part being issued as it is completed. While the project might be self-supporting should there be a sufficient number of subscribers, the committee is being aided financially by the Carnegie Trust, and is sending appeals to Scots at home and abroad, and also to Burns Clubs, St. Andrew Societies and Scottish County Associations. Representatives will be sent to Ireland, New Zealand, and other countries to gather material. In seeking information a questionnaire brought 15,000 replies from the district of Edinburgh alone.—New York Morning Telegraph.

Alberta Cattle Breeder Sells Herd

Allan R. Gillies, breeder of Ayrshires and Yorkshires, Clover Bar, Alberta, has sold his entire herd of 63 head of pure bred Ayrshires to parties in Seattle, Wash., U.S. It is unusual for whole herds to be sold at one stroke. The sale apparently indicates that the demand for Western Canada live stock is steadily increasing.

It Bids Pain Begone.—When neuralgia racks the nerves or lumbago cripples the back is the time to test the virtues of Dr. Thomas' Electric Oil. Well rubbed in it will still the pain and produce a sensation of ease and rest. A trial of it will establish faith in it.

Indigo producing plants are grown throughout China to make dye for the blue clothing worn by Chinese lower classes.

It is always of exactly the same quality and strength, so baby's bottles take no time to make with Eagle Brand—the safe food since 1857. Write The Borden Co., Limited, Montreal, for Free Baby Books. B2427

SALESMAN WANTED to sell hardy tested stock of "Canada's Greatest Nurseries" (Established 50 years). New and special lines, including varieties recommended by the Western Experimental Stations. Highest commissions, exclusive territory, handsome free outfit. Start now. Stone & Wellington, Toronto, Ontario.

Leaves For Hudson's Bay

British Engineering Expert Is Accompanied By Official Party

Frederick Palmer, British engineering expert, who has been retained by the Dominion government to report upon the Hudson Bay harbor development at Port Nelson and Fort Churchill, arrived in Ottawa, July 27 from England, accompanied by E. J. Buckton, prominent engineer of London, England, and left at once for Hudson Bay with the official party, which includes Hon. Charles A. Dunning, minister of the department of railways and canals, and Major Graham Bell, the deputy minister.

The Terror of Asthma comes like a thief in the night with its dreadful throttling, robbing its victim of breath. It seems beyond the power of human aid to relieve until one trial is made of that remarkable preparation, Dr. J. D. Kellogg's Asthma Remedy. Then relief comes with a rush. Life becomes worth living, and if the remedy be used persistently, the disease is put permanently to rout. Take no substitute.

A long-legged sheep in the Himalayas is able to run 40 miles an hour. Even the modern Marxs would have a hard time keeping up with a clip like that.

Coal Production Increasing
Latest official figures show that coal production in both Alberta and Saskatchewan is increasing.

Western Canada To Be Important Section Of One Of World's Greatest Countries

Western Canada, "An Acre of Diamonds," is destined to be in the years to come one of the greatest parts of one of the greatest countries of the world, according to Roger W. Babson, prominent statistician and authority on business affairs, who addressed the Board of Trade at Calgary recently.

Mr. Babson dealt with the location, the climate and the resources of the country and to the characteristics of the people who comprise its population. He spoke of the emigration of the Canadian youth to the United States, and deprecated the fact that more about Canada is not taught in the universities in order that students might be shown that to go to the United States is but to live on milk and honey for a few years only to be thrown on the scrap-heap later, when, had they stayed in Canada, they might start from the bottom of the ladder, but surely build business and financial independence for themselves.

Dealing in detail with this exodus, which has been taking place from Canada to the United States, the speaker declared that, during his travels in Canada he has made a point of inquiring from the young people whom he has met, to find out what their primary ambitions are. He has found here many young people from the British Isles and Australia who are staying in Canada only until their quota in the United States may be thrown open.

"In your universities and colleges, you are teaching your young people about history and the sciences and law, but are you teaching them enough about Canada?" he asked. "Are you teaching them anything about Canada's abundance of resources? Are you telling them the truth about the economics of Canada?"

Much can be done to really assist these young people by educating them to the true economic condition of the United States. At present that country, he continued, is bearing forward in a great wave of prosperity, but the wave cannot always last; the stock markets cannot always continue to go up. There must be a time when the tide will swing the other way and when the depression comes, the Canadians, the English, the Scotch and the Australians will be the first to be cast out of employment. Much can be done to prevent this disaster for them by a proper method of education, he continued.

Canada, he declared, has the proper climate because a temperate climate is necessary for the building of sturdy, virile manhood. Such a climate has always been responsible for the raising of the races of men, who have contributed the most to the world's progress, and the speaker gave example in the development of the United States to show that the large majority of the men who really contributed most to the upbuilding of the nation's greatness came from the northern climates.

Shipping Horses To Russia

Western Horses Bound For Russia Leave Alberta

The first of the 4,000 Canadian horses ordered by the Russian Soviet government has left Alberta it is announced by J. M. McCallum of the Canadian Department of Agriculture. Arrangements were made for a trainload of 26 cars, carrying 598 horses, to leave Calgary and Medicine Hat.

Although some difficulty has been caused in procuring the number of horses required because of the price offered, Mr. McCallum said the first boat load would leave Quebec only a few hours short of the 1,400 previously arranged for.

Advice Seemed Good

Certain actor, playing the part of a consumptive hero, practised a realistic cough. During the first performance he coughed continually. After one terrific explosion his old tutor, in the play, had to remark, "My dear friend, what can I do for you?" Whereupon a sympathetic friend from the gallery exclaimed, "If you are his friend, why don't you give him a blooming coughdrop?"

Good Prospects For Sheep

Prospects for the sheep industry are most hopeful this year with good prices in sight for both lambs and wool, according to W. H. J. Tisdale, assistant manager of the Canada Co-operative Wool Growers' Association, who has just completed a tour of the wool growing districts of Western Canada.

Have Become a Menace

Rabbits Undermining Lighthouse At Entrance Of Juan De Fuca Strait

The rabbit, such a pretty and attractive pet when kept in a hutch, is undoubtedly one of the most destructive and dangerous pests among the mammals.

In Australia, millions of dollars worth of damage is done by it every year, and hundreds of thousands of dollars have to be spent in erecting wire fences, laying traps, and so on, to keep down the pests.

A similar state of things exists in California, and now the rabbit is destroying Smith Island at the eastern entrance of the Strait of Juan de Fuca.

Here the animals are proving more destructive than the sea and they have so undermined the lighthouse standing there that it is in danger of falling.

Twenty-five years ago a former lighthouse keeper took a pair of rabbits to the island and began breeding them to supply the Seattle market, little realizing what the result of his experiment would be.

The rabbits multiplied at an alarming rate and overran the island, eating every green thing and tunnelling through the sandy soil. Not only the lighthouse and the wireless station are now in danger, but the very island itself is threatened, for, undermined as it is, in all directions, and covering only 56 acres, it will fall an easy prey to angry seas.

It is astonishing what a danger and a menace to a country a little animal, which, individually, is not only inoffensive but attractive.

A Modish Separate Blouse and Skirt

Exceedingly smart is the blouse shown here, of unusual design, having tucks at the shoulders, and a square neck. Contrasting material is used for the bands under the scallops at the left side of the blouse and on the long tight-fitting sleeves, cuffs on the short sleeves, and patch-pocket. The blouse is No. 1589 and is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 2 1/2 yards 39-inch or 1 1/2 yards of 54-inch material; 3/4 yard less 39-inch for short sleeves; 3/4 yard 39-inch contrasting material. Price 20 cents the pattern.

The skirt, having an inverted plait at each side of the front, and eight gathers at the back, is joined to a dart-fitted under-bodice having a shaped top, or shoulder straps. The skirt is No. 1590 and is in sizes 34, 36, 38, 40 and 42 inches bust. Size 36 requires 1 3/4 yards 36 or 39-inch material for skirt; 1 1/2 yards 36-inch material for shaped top, or 1 yard for straight top with shoulder straps. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents, the copy.

England Enjoys Empire Fruits

Depends On Export From Dominions For Luxury In Winter

In our use of fruit today, as the Secretary of the Dominions has just put it, we are still far behind the United States, as the Continent is far behind us. The Americans had the start of us by the luck of their position. The United States, possessing not one climate, but many, produces within its own frontiers an abundance of all the fruits of the temperate and sub-tropical zones, and the Tropics are at its doors. Our small islands, though we may boast that the fruits which we do grow no one on earth grows better, cannot provide for twelve months in the year. It is only since the Dominions began to develop their natural resources and send us the crops of the orchards under the Southern Cross that we have had peaches and plums in winter and apples all the year round.—London Daily Telegraph.

Injustice To Agriculture

Food Shortage Is Predicted In United States Within Next 40 Years

A revolt by the industrial population against high food costs was pictured before the Institute of Politics as a possibility in the United States within the next 40 years.

Henry A. Wallace, son of the former secretary of the association, in an address on the agricultural situation, declared the grave injustice that has been done to agriculture during the past six years. He predicted a food shortage within 40 years with resultant disturbances that will cause industrial centres a thousand times as much worry as the present farm situation.

He also warned that the industrial population might precipitate trouble when an imminently inadequate food supply compels them to pay undue proportion of their wages for food.

Offer High Price For Poultry

University Of British Columbia Refuses \$1,000 For Hen

An offer of \$1,000 for the famous hen No. 6 or \$3,000 for a pen of ten birds of last year's Experimental Farm contest at Agassiz, of which Hen No. 6 was one, has been made to Professor Lloyd, of the University of British Columbia, who is in charge of the British Columbia exhibit at the World's Poultry Congress, where these birds are being exhibited.

Dean Clement, head of the College of Agriculture in the B.C. University, to whom the offer was referred, announced recently that it had been declined as the birds were of too great value to the University for breeding purposes to dispose of them. The offer is said to be the highest ever made for utility stock.

British Children Travelling

More applications are now being received at the British passport office for names of children to be included in parents' passports than ever have been dealt with before. Travellers going abroad for brief periods are taking younger members of their families with them and the demand for children's accommodations has become so heavy that extra provision has had to be made on many ships for young passengers.

Found More Money In Hay

A ton of hay bought for \$28 on the track at Hudson, Ont., costs \$175 at Red Lake. A far-sighted prospector staked about ten acres of comparatively clear land at Snake Falls. The following summer he cut and stacked twelve tons of wild hay which he sold to a transportation company for \$125 per ton in the stack; he has since ditched his pick and shovel in favor of a scythe and rake.

Poultry Business Profitable

Canada Not Yet Aware Of Importance Of Industry

An honor was paid to Canada by selecting Ottawa as the scene of the World's Poultry Congress. This is only the third congress that has been held, so that the place of the Dominion in poultry matters has early received international recognition.

Canadians are so much accustomed to hear about the value of the wheat produced in the West, the value of our lumber and minerals, and the value of our manufactures, that the importance of the poultry industry is lost sight of.

There are few great poultry farms, but it is the few here and the few there that combine to make up a vast and, to those who know how to handle it right, a very profitable business.

Fifty million dollars is the value of the annual production of eggs alone in this country. Many millions more must be counted for poultry sold for the table.

Canadian eggs stand foremost in quality. They command the highest price for eggs imported by the British market.

That position is only achieved by sound breeding. The result carries its own message for the farmers of this country.

If quality of eggs commands the highest price in the export trade, the same principle applies to bacon, butter, cheese and every other product. In these lines Canada is either falling behind or almost standing still.

There are too many farmers who are content to jog along, doing a little better than just making ends meet. They need stirring up to a realization of their opportunities. They owe it to themselves and to Canada, so that every article that is sought by export buyers will measure up to one standard—the best—and importers will have confidence that if it is Canadian it is good.

Use Tar Sands On The Road

Ninety Carloads Of Tar Sands From Fort McMurray To Be Used At Jasper

Ninety carloads of tar sands will be shipped from McMurray, during the present summer, to be used in road-making at Jasper Park. The work of surfacing the roads is being supervised by Dr. S. C. Ellis, of Ottawa, who has spent several years investigating the tar sand deposits and experimenting with the material with a view of developing some practical means of utilizing the material. A piece of road paved with the tar sands in the City of Edmonton some years ago under the supervision of Dr. Ellis, is in almost as good condition today as it was when first laid down, in spite of heavy traffic.

Weight Of Rainfall

One Inch Of Rainfall Deposits 113 Tons Of Water On Each Acre

One does not usually associate rain with great weight. Even when the clouds let loose a torrential down-pour the mind reckons it in ounces rather than tons, yet one inch of rainfall deposits 113 tons of water on each acre of ground surface. To take an extreme case, so far as known rainfalls go, that of Cherrapunji, in India, on the watershed of the Ganges, nearly 30,000 tons have fallen in but one month, August. The average annual rainfall of 426 inches there comes to nearly 50,000 tons to the acre.

Car Salesman: "And what kind of a horn would you like, sir? Do you care for a good, loud blast?"

Haughty Customer: "No; I want something that just sneers."

Migratory Birds Treaty Between Canada and U. S. Has Been Very Beneficial

Horses Deserves Best Of Care

Is Still Indispensable and Renders Good Service

The horse is a faithful, patient friend of man. He deserves the utmost care and attention. He still plays an important part in the economic life of the nation, and is still indispensable. In short hauls he is cheaper power than the auto. Apart from treating the horse well for his faithfulness, it pays to use him well from the standpoint of service. A well-fed, well-cared-for horse will be in a position to render better service than the horse which is neglected and ill-fed.

Now that the hot weather is in evidence, those using and having the care of horses should give them extra attention. Of course they should be well supplied with food and water, and they need a large quantity in the course of a day.

There are two sources from which the working horse may suffer great annoyance and pain—one is the collar, the other the bit. Almost every working horse bears scars or a painful sore on the top of his neck, where the collar has galled him. Often he is compelled to wear a breast collar, and this places him at a disadvantage when hauling a heavy load. A properly fitted collar, well adjusted and padded, will cause no trouble.

Be good to your horse. He will be grateful to you and will render you increased service.

Retain Women Employees

No General Removal Of Policy On the Part Of The C.N.R.

"The Canadian National is not as a general principle, substituting men for women in the various clerical positions throughout its system," stated W. A. Kingsland, general manager of western region, Canadian National Railways.

Press reports that women were to be let out of clerical positions all over the system and men substituted, caused consternation in the ranks of women workers for the railway, which situation is now clarified by Mr. Kingsland's statement.

What is being done, Mr. Kingsland stated, was that in certain clerical positions where, due to conditions, it was considered that men were better fitted for the work than women, men are being substituted, but there is no general reversal to the policy which existed before the war, when men were employed throughout the service, and few, if any, women.

Trying Color Cures

By replacing white walls and red coverlets in hospitals with delicate green, yellow, and mauve ones. It is claimed that patients are kept in a better temper, sleep well, and leave hospital three days sooner than under the old conditions. One individual, afflicted with chronic insomnia, went to sleep within an hour in the restful atmosphere of a room decorated in mauve.

Seek Cooler Motor Car

Experiments at the air research laboratory of the American Society of Heating and Ventilating Engineers in the Pittsburgh bureau of mines may lead to many developments in automobile design, according to F. C. Houghton, director. Among the possibilities are mentioned white roofs and strips of damp burlap or some other device to lower temperature in hot weather.

"If spring shooting of migratory game birds had not been abolished throughout North America in 1916 there would not now be left a sufficient number of birds of certain important species to provide shooting for anybody, either in spring or fall."

This considered opinion of a Canadian game conservationist brings into high relief the benefits of the Migratory Birds Treaty between Canada and the United States and the Acts which implement it. The complete extinction of the passenger pigeon shows that this is not an overstatement, for while the case of the passenger pigeon presents peculiar features, nevertheless the fact remains that this beautiful and useful bird was exterminated because of lack of protection at the spring nesting time. The passenger pigeon in the 30's of the last century flocked in Canada and the northern United States by millions, yet so rapid was the process of extermination that this bird had completely disappeared nearly thirty years ago.

This and other facts concerning the possible practical extermination of some of our remaining species of migratory game birds—geese, ducks, etc.—have led to the general acceptance by sportsmen of the prohibition of spring shooting as a necessary provision. Under the old piecemeal methods of local regulation on the one hand, and the decreased area of breeding grounds and increased efficiency of hunting arms on the other, many species of migratory game birds were, before 1916, dwindling in numbers in a most rapid and alarming manner. Crossing as they did provincial, state, and national boundaries in their semi-annual flights, the birds could not be protected unless the regulations were continent-wide. That was secured by the Treaty and like good sportsmen the different provinces and states are playing the game. In the United States the shooting of ducks and geese stops on January 31, so that these birds are protected on their northward flight to Canada.

Everyone knows that there is no surer way to exterminate any animal or bird than to pursue and harry it immediately before and during the breeding season. Taking into consideration that every bird arriving in Canada has survived a winter and two migrations, it is probably not over the mark to say, from the standpoint of bird conservation, that each bird killed in spring is the equivalent of four or five killed in the autumn. The abolition of spring shooting, according to reports from all parts of the country, has increased the fall flights, and birds are now nesting in localities where they had not been seen for so long that people had come to believe they had never nested there. The object, of course, in these measures is not to reduce human profit and pleasure but to increase it by perpetuating and increasing the numbers of the animals or birds concerned. Speaking of the country as a whole, Canada has held a good stock of moose and deer, and is rapidly bringing back the buffalo and the elk, and there is every reason to believe that the same happy result will follow the efficient management of North America's wild ducks and geese.

Another Royal Ranch

Land On Vancouver Island May Be Presented To Prince George

Prince George may be the recipient of a ranch at Cobble Hill, Vancouver Island, B.C., when he and the Prince of Wales visit here this summer. The proposed presentation has been sponsored by the Associated Boards of Trade of Vancouver Island, and the Government will be asked to vote \$25,000 for the purpose, the City of Victoria \$10,000 and other municipalities on the island \$10,000. The remaining \$40,000 of the \$85,000 would be raised by public subscription.

Although the ranch, including machinery and equipment, may be purchased for \$85,000, it is stated that \$265,000 has been expended on it. The project will go before the Government almost immediately.

Hunting For New Double Stars

Through a huge telescope that has been completed after many months of work, astronomers propose a ten-year search about the skies from an observatory in South Africa for the purpose of measuring the known double stars and to hunt for new ones. The lens for the instrument was made in Pittsburgh and cost \$25,000. It will be mounted under an electrically operated fifty-foot dome, costing approximately \$30,000.

RUNNING AHEAD OF THE TIMES

To keep abreast of the times is good, but to run ahead of them is better, and that is what the Canadian National Railway is doing in putting on the rails this powerful oil electric car, the latest invention in railroad transportation equipment. Two of these cars has just come west from Montreal for service on the line between Saskatoon and Edmonton.

They are fashioned after the oil electric car which made the famous run from Montreal to Vancouver in seventy-six hours in the fall of 1925, but they contain many improvements and additions and are equipped with six-cylinder engines. Although many railways in the United States have endeavored to evolve a car which would be economical to operate as

well as able to satisfy the demands of traffic, the Canadian National Railway has been the only system, up to the present, successful in producing a self-propelled unit capable of fulfilling all the requirements. The new cars are 73 feet 9 inches in length and ten feet wide and have commodious baggage, passenger and smoking compartments. They can carry 300 gallons of fuel.

Mr. J. B. Gray
has returned to take charge of our
meat department
and welcomes old and new customers,
who will be given the same good
service as formerly.

**SUMAS HOP FIELDS NOW
MOST POPULOUS SECTION
OF ENTIRE DISTRICT**

**1,000 Pickers Now Easily Engaged After
Minor Strike For Higher Pay**

Harvesting is well underway in the
hop fields of the Canadian Hop Co.
at Sumas Prairie and the Maas Hop
Co., about 1,000 pickers being engaged
in the fields of the former concern,
where 600 acres of vines are ready to
be cleaned.

A contingent of about 1,300 pickers
arrived on the Canadian Hop Co.'s prop-
erty on Wednesday afternoon, to find
that they were a day or two ahead of
the preparations being made for their
accommodation. Many arrived without
employment agency registration slips,
but pickers had been advertised for,
and all those desiring work were given
quarters in cabins, 300 of which had
been erected for pickers' use. Picking
commenced on Thursday, and on Friday
disagreeable weather, shortage of ac-
commodation for the army of pickers,
(numbering between 1,300 and 1,500)
and other circumstances, including lack
of picking experience on the part of
many, combined to create a certain
amount of dissatisfaction. Fostered by
a few agitators, of which there is al-
ways a sprinkling among such crowds,
the pickers declared a strike, asking
payment of 3 cents a pound, instead of
the 1 1/2 cents a pound being paid. As
some disorder was anticipated Con-
stantin Nelles, Greenwood and Ledoux
were called out, and the strike ring-
leaders dismissed.

Experienced pickers are averaging
200 to 250 pounds a day, a few more
than that, but most of those engaged
at the work for the first time range
from 60 pounds to 150 pounds. The
work seems to be most profitable for
large families, the children in many
cases equalling the earnings of adults,
thus aggregating a satisfactory wage.
Many also go the fields for a holiday,
and find in the work and company a
pleasant diversion from their usual
employment.

The two-year-old vines are yielding
exceptionally well—as high as any-
where on the Pacific Coast the hop
men claim—but the yearling vines nat-
urally provide light picking. Harvest-
ing will last from four to six weeks,
and to provide quarters for many other
pickers wanting work, 100 tents are
being set up. Four of the huge kilns
are now practically completed and
treatment of the hops is proceeding.
Ira Town of Vedder mountain, has
been appointed special constable at the
fields, but the crowd is comparatively
orderly, and he is not likely to become
overworked.

Make Swimming Record At Cultus Lake
Two Chilliwack men last week swam
from the south end of Cultus lake to
the raft at the park, a distance of ap-
proximately four miles, in three hours.
They were A. Manfield and Jack Brown.

Arthur Linn, 8-year-old son of Mr.
and Mrs. Linn, died of appendicitis in
Sumas Hospital on Thursday last.
He had been operated upon a few
days previously.

Mr. E. A. Hunt opened his Jubilee
Candy Store and barbering parlor on
Essendene avenue this week, and it is
attractively decorated. He has two
new barber chairs, and other modern
tonorial equipment. Wiring of the
premises was done by Weir's Garage.

R. G. Wainwright of Aldergrove was
fined in Abbotsford police court for
using a trailer on his truck without a
license for it.

Rev. T. S. Paton preached at the
Powel River Trinity Church last Sun-
day. He is considering leaving Ab-
botsford to take the charge at that
place.

Mr. Grant of the Abbotsford Shoe
Store has taken over complete proprie-
torship of the store he operates, having
purchased the shoe stock therein from
Mr. McDonald on August 15. He plans
to specialize in certain brands of shoes
especially suitable for local needs.

T. A. Menzies writes from Courtenay
V.I. that he expects to return to Ab-
botsford shortly.

Mrs. Bolsch of Abbotsford underwent
a minor operation in Sumas hospital
last week.

G. L. Redmond of Chilliwack is re-
lieving at the News office in the absence
of G. H. Heller, who, with Mrs. Heller
and Hester, is taking a trip on the
Island and over the Olympian Highway.

Miss Dorothy Love of Sacramento,
California, is visiting Mr. and Mrs. O.
W. Benedict.

Round-up To Be Real Thriller
This year's Sumas roundup is adver-
tised as "something different—some-
thing better than you have ever seen
before" and in the previous two events
the roundup promoters "made-good"
their promises.

Beside thoroughbred horse races, Indian
races, Roman and chariot races, relay
and pony express, wild horse and cow-
boy derby races, there will be Indians
galore, incomparable strings of bucking
outlaw horses, untamed mustangs, long
horn Brahma steers, wildest of cattle
bred. Competitive contests, clean cow-
boy and cowgirl sports, exemplified to
the highest degree, by expert perfor-
mers, and trained animals which give
every kind of thrilling sport known to
the west. The prize purses aggregate
\$15,000.00, so there should be some ex-
citement.

Many Canadians plan to patronize
this event of our neighboring U.S. town
next week, and show the right spirit
towards an ambitious community effort

Liner's Length Compared

Few people realize the length of an ocean liner as they see the ship in
port or at sea. The above illustration shows how, if turned on end
by some giant hand, a 14,000-ton Cunard Canadian Service liner would
top by some 150 feet the new 23-story Royal Bank of Canada building,
now under construction in Montreal. The bank towers 395 feet from
the street level and is the tallest office building in the British Empire.
The Cunarder Berengaria, one of the world's largest ships, is 519 feet
long.

MASTOID AFFECTION CAUSES DEATH OF KILGARD MAN

Ernest Arthur Stratton, eldest son of Mr. and Mrs. T. B. Stratton, Kilgard, passed away in Vancouver General Hospital on Monday, death being caused by mastoiditis. Deceased had been taken to the city a short time ago, suffering from the ear affection, and was operated upon just previous to his death.

The deceased young man, who was 27 years of age, was born at Stratton. He leaves, other than his parents, a wife and two young children. Also one brother Roy, and four sisters, Mrs. A. R. Keeping, Mrs. Chas. Keeping, Mrs. Lindores, and Miss Addie, all residing in the district.

The funeral takes place this afternoon, from Gillies' parlors, Sumas, to Musselwhite cemetery.

Sincerest sympathy is extended to the bereaved relatives.

Heavy Pea Crops Being Harvested At Sumas

Some ten threshing outfits are at work in the Sumas district, being operated by the following threshers: Mat Anderson, L. Beharrell, A. Loney, J. Blacklock, E. Lund, S. Ford, J. Starr, Wm. Porter, F. Hartshorn and C. A. Lamson. Oats are averaging just over one ton to the acre, wheat is just an average crop, but field peas are yielding high, Blue Bells going about one ton to the acre, and Mandarins just under a ton.

Duck-Shooting Season Dates

Open season for ducks, coots, geese and brant in the Western District of B. C. has been set this year from Oct. 15 to Jan. 31. Jack snipe season is open during the same period. Both dates inclusive.

Daily bag limit—Ducks, 20 of all kinds in one day, and not more than 150 of all kinds in a season. Geese—10 in one day, and not more than 50 in a season.

There is a closed season in British Columbia on band-tailed pigeons, swans, wood duck, elder duck, black-bellied and golden plover, Greater and Lesser Yellow-legs, dowitchers, knots, oystercatchers, phalaropes, stilts, surf-birds, turnstones, and all shore birds not otherwise mentioned.

Shooting of migratory game birds in B.C. earlier than one hour before sunrise or later than one hour after sunset is prohibited.

Mr. and Mrs. J. B. Stobbs and family are residing on the G. A. Loney property, McKenzie road, Mr. and Mrs. Loney having moved on to the Taylor farm opposite. Mr. Stobbs is employed at the Pacific Milk condensary.

WORLD HAPPENINGS BRIEFLY TOLD

Automobile accidents claimed 573 lives in 77 large cities of the United States during the four weeks ending July 16.

Kinjiro Matsudaira, a Japanese born in the United States, has been elected mayor of Edmonton, Mo. He was unopposed in the balloting.

Rev. W. B. Tighe, president of the Ottawa district Baptist Association, is dead. He was 57 years old and was formerly stationed at Winnipeg and Yorkton, Sask.

A consignment of half a million King salmon eggs from British Columbia for a private firm in Argentina, has been shipped from Puget Sound. The eggs are to be placed in a tributary of the Rio de La Plata.

Captain N. A. Sullivan, captain of the Renown, which took the Duke and Duchess of York to Australia, was invested by the King at Buckingham Palace with the insignia of a Commander of the Royal Victorian Order.

The annual crime loss in the United States is about \$3,000,000, it was stated at Atlantic City by delegates arriving for the thirtieth annual convention of the National Surety Company, of New York, which opened there.

The first system of aerial transportation for passengers, mail and express matter in the West Indies will begin operation about October 1. It will connect points in Cuba, Santa Domingo, Haiti and Porto Rico, and flights will be made twice each week.

Miss Sarah Fuller, pioneer in teaching the deaf to talk, died at her home, Newton, Mass., in her 92nd year. She was associated with Alexander Graham Bell, whose teaching of the deaf and the study of acoustics led him to the invention of the telephone.

The Dail Eireann has voted £20,000 (about \$100,000) in a lump sum as a provision for the widow and children of the late Kevin O'Higgins, vice-president of the Free State Council, who was assassinated recently. The money is vested in trustees.

Carrying with them marks of merit in the shape of some of the most coveted trophies in the Empire, part of the Canadian Bisleys team arrived home. They brought the Kolapore Cup and the McKinnon Cup, both of which they won at the Bisleys meeting.

Curb British Money Lenders

New Bill Contains Restrictions Which Will Benefit the Public

The Moneylenders Bill which has passed the British House of Commons and is now before the House of Lords, is practically certain of a safe passage to the Statute Book. The Bill is expected to come into force next New Year's day. Its provisions are:

- (1)—Every moneylender must take out an annual license costing £15, in respect of each of his offices;
- (2) Moneylender's circulars are declared illegal, unless asked for;
- (3) Moneylenders may advertise only in a specified form;
- (4) Moneylenders may not employ canvassers (touts) or agents;
- (5)—Memoranda of contracts must be signed by borrowers and copies supplied to borrowers within seven days;
- (6) Contracts must show the date of the loan and the interest per cent per annum;
- (7) Compound interest, and increase in the rate of interest for default, are prohibited;
- (8) Moneylenders must supply on the borrower's demand at any time a record of the state of any loan;
- (9)—Interest is limited to 48 per cent per annum, unless proof can be produced that higher interest is not "harsh and unconscionable";
- (10) Preliminary charges are forbidden, and there is a general limit of twelve months from the date of default to actions by moneylenders;
- (11) The measure applies (with certain modifications) to Scotland, but not to Northern Ireland.

Value Of Character

Any man who knows enough to appreciate the value of money, or possessions of any kind, knows enough to appreciate the value of character, temperance, industry and politeness. Character is not an ornament to teach children, or write or lecture about, but the first help in getting along in life as easily and comfortably as is possible.

The United States manufactured a hundred billion cigarettes last year, most of which were smoked by young men who say they never had a chance to save any money.

A man may be able to argue with a woman, but if he never does any good.

W. N. U. 1693

Home Of the Cave Men

Evidence That Scotland Was Inhabited In Prehistoric Times

Evidence that Scotland was inhabited by cave men in the chilly days of the old stone age has been obtained as a result of excavation in caves of northern Scotland.

James E. Cree, who directed researches in four caves, under a grant from the Royal Society of London, has reported the discovery of two human skeletons in connection with bones of bears and other animals of frigid climates.

Further evidence of man's occupation of the caves in ancient times was found in a lower level of gravel containing antlers and bones of reindeer together with tools of reindeer horn, antlers cut and scratched by human beings, and bits of charcoal which showed that fires had been burning.

These finds are the first indication that there were any human beings in Scotland as far back as the Paleolithic era, which ended some 10,000 years ago. Mr. Cree's researches have disclosed the first bones of cave-bears and Arctic foxes to be found in Scotland.

Further search for traces of stone age culture will be made during the summer, it is planned.

Air Mail Conference

Canada To Be Represented At Meeting To Be Held At The Hague

L. J. Caboury, Deputy Postmaster-General, will represent Canada at the Conference on International Air Mail, which has been called by the International Postal Union to be held at The Hague on September 1. Twenty-five countries will send delegates and representatives of the leading aircraft companies of the world will be present. Temporary agreements will remain in force until 1929, when they will be submitted to the Universal Postal Union, which meets in London in that year.

It is still hoped by officials here to have some experimental flights made during the coming fall, probably in the Gulf of St. Lawrence, in order to have definite information upon which to call for tenders next spring. The experimental work is a matter of arrangement between the Postoffice Department and the Department of National Defense.

Shirring Is Shown On a Dainty Frock For the Junior Miss

Charmingly simple is the demure frock shown here and is a style the home modiste will find quite easy to fashion. The opening is at the back and shirring forms an attractive self-trimming around the neck, at the waist and lower edge of the long raglan sleeves. No. 1548 is in sizes 8, 10, 12 and 14 years. Size 10 requires 2 1/2 yards 36-inch, or 1 1/2 yards 54-inch material, and 1/2 yard 36-inch lining for stays under the shirring. Price 20 cents the pattern.

Home sewing brings nice clothes within the reach of all, and to follow the mode is delightful when it can be done so easily and economically by following the styles pictured in our new Fashion Book. A chart accompanying each pattern shows the material as it appears when cut out. Every detail is explained so that the inexperienced sewer can make without difficulty an attractive dress. Price of the book 10 cents the copy.

Artist Goes To Arctic

Takes Long Trip To Paint and Sketch Scenery In Northern Canada

A. Y. Jackson, Toronto artist, has left Toronto on his trip to Craig Harbor, Ellesmere Island, 750 miles south of the pole, where he intends to paint and make sketches.

"The reason why I am going to paint in the far north," Mr. Jackson says, "is because I think the ordinary pastoral painting, as practised now, is a dead letter. New art forms are necessary if the artist would develop. I think I will find new art values in the far north."

"Fresh inspiration and freedom from convention are necessary to develop individuality in Canadian art," he explained. "The work of those who follow in the old pastoral tradition must of necessity relate itself to that of the European schools, and be imitative, because it lacks spontaneity."

"The Canadian artist is beginning to realize that there is interesting material for his work in this country and has little desire to go to Europe any more. Let the artist get a grounding in his work here; then if he wants to let him go abroad for the museums."

"I believe that the development of Canadian consciousness is going to come through painting. Many people believe that it is coming now."

"There is a country to the north of us which is unique and distinctly Canadian. Let our artists turn explorers, let them go up into this territory and interpret it for Canadians. Much has already been done. We have heroic landscapes of Hudson Bay and the Labrador Coast. Thompson's 'West Wind' will serve to explain what I mean by 'heroic landscapes.' Canada's great background for heroes has been treated too often as a stage for a mere Punch and Judy show."

Historical Data

Exhibit Relics Of Old H.B. Days In North Canada

Relics of the history of the Hudson Bay Company were exhibited in Winnipeg recently for the first time. Many old documents, books from old libraries used in the long night of the Arctic, swords, guns, marriage licenses, signed before the company officers, and examples of life from every part of the country touched by the company were on view.

A model of the Nonsuch Ketch, the little ship that dared the ice floes of Hudson Bay in 1668, a facsimile of the charter granted by King Charles II. in 1670, along with the deed of surrender of the land by the Hudson's Bay Company to the Dominion of Canada, portrayed the historical events linked up with the opening of the north country. Andrew McDermott's peppercorn lease of land for 1,000 years on payment of one peppercorn a year is among the collection.

Russian Phone Girls Protected

Russian telephone operators are protected by law against being scolded. If a telephone user loses his temper and says what he feels into the transmitter, the offended operator merely reports the number and his telephone is promptly disconnected for a time. The Soviet "Hello Girls" give few wrong numbers, however.

Clay Products In the West

Clay products made in Manitoba, Saskatchewan, Alberta and British Columbia last year were valued at \$1,829,915, compared with \$1,412,537 for the previous year. Alberta led with a production valued at \$804,932.

CHARLES L. WELDON

whose appointment as acting manager of The Macdonald Hotel, Edmonton, was announced by Walter Pratt, general manager of the hotel system of the Canadian National Railways, July 1st. Mr. Weldon, who is the son of the former managing director of the Windsor Hotel, Montreal, commenced his career with that hotel in 1909 and left to serve five years overseas with the Canadian forces in the Great War. On his return he joined the United Hotel string and successively, was assistant manager at the King Edward, Toronto; The Book-Cadillac, Detroit; Benjamin Franklin, Philadelphia, and the Mount Royal, Montreal. In May of 1926 he joined the Canadian National Railway Hotel System as assistant manager at Jasper Park Lodge, Jasper, Alberta, and after the summer season he was assistant manager of the Fort Garry Hotel, Winnipeg. This season he was again assistant manager at Jasper Park Lodge until his new appointment.

Will Compete For Imperial Trophy

B.C. Growers Going After Cup At Imperial Fruit Show

British Columbia intends to make a strong effort to capture the Agents-General Cup, which is offered for the first time at the Imperial Fruit Show at Manchester this year. For the last few years this province has won most of the chief awards, but these have been taken by exhibitors prepared by the Associated Growers. To win this challenge cup—the highest honor of the show—a goodly number of entries are required, according to the conditions, and in previous years individual growers have abstained from entering on account of the expense and trouble involved. To overcome these difficulties the British Columbia Fruit Growers' Association is arranging to collect individual entries and forward same in one provincial lot.

How It Happened

A negro taxi driver was charged with having run down a pedestrian. "When you are driving," said the magistrate, "and you see you are about to hit some person, you should zigzag your car." "I did zigzag, your worship," said the negro, "but dat man was zigzaggin', too, and he zigged so much faster dan I could zag dat it just nacherly give me de swimmin' is de head, an' dat's how I come to hit 'im."

Felspar Found At Lake Of the Woods

A Winnipeg firm which manufactures building materials is making test with felspar from the Lake of the Woods, where deposits are being opened up. Felspar is used in the manufacture of glazed tile, porcelain, insulators, etc.

British Bowlers Tour Canada

Members of the British Lawn Bowling Association who arrived in Canada recently on the Canadian Pacific steamship Melita to engage in a series of test matches across the Continent as far as Victoria. The British players came to Canada at the invitation of the Dominion Lawn Bowling Association and represent the leading clubs of Great Britain. The first test match was played in Montreal and from here the party proceeded to Ottawa and thence to Toronto. Their schedule calls for a trip up the Great Lakes to Fort William, where the train will again be boarded for Vancouver. When the English players return East in September they will have played in all the principal centres across the Continent. Special stops arranged at Banff, Lake Louise and other resorts in the Canadian Rockies will be a feature of the tour.

Why "Destroyers" Were Built

Were Designed At First To Chase Torpedo Boats

Torpedoes in their early days were weapons effective only at comparatively close quarters to their targets. When first brought into use in the world's navies the torpedo boat, therefore, was a small, fast ship designed to dash up to a battleship, discharge her tubes, and if possible get away again. As the boat was not intended to do any ordinary fighting, she carried torpedoes only and next to no other armament.

The next step in naval architecture was to find something to counter the new weapon, and so the torpedo boat destroyer came into existence, a much bigger ship, carrying guns, for the chasing of torpedo boats. Besides her anti-torpedo-boats guns, the destroyer carried torpedoes herself, in case she had a chance at an enemy battleship, and so the torpedo boat destroyer really superseded the torpedo boat altogether, doing everything that she could do, and a bit more.

There are, then, practically no real torpedo boats left, but the T.B.D., which at once chased them off the sea and took their job, still keeps its old name, generally, nowadays, shortened down to plain "destroyer."

Turkish Celebration Costly

Treasury Drained On Recent Visit Of President Of Republic

With more than a million Turkish pounds spent in celebrating the recent visit to Constantinople of Mustafa Kemal Pasha, President of the Turkish Republic, the majority of the population of the metropolis is prepared to live for the rest of the summer on bread and cheese, flavored with gala memories of the spectacular and costly show.

The municipality drained its treasury to such an extent that it has not yet been able to pay salaries or pensions for June and those not dependent on the municipality budget are not much better off as the greater part of their personal "luxury allowance" went into subscriptions collected for the celebration.

The money was used for triumphal arches, flags, pictures of the "Ghazi" as well as an \$8,000 American made automobile and a high-powered motorboat which were presented to the president.

Favorite Author Of Prince Of Wales

Kipling Is Only One He Quotes From Memory

The Prince of Wales probably read more as a boy than he has done since. He was given a simplified edition of Captain Cook's "Voyages of Discovery" by King Edward when he was seven years old, and this book absorbed him at once. His then tutor, in a monthly report, remarks: "The prince is so engrossed with Cook," which led to him being deprived of "Voyages of Discovery" for a month.

Macaulay's "Lays of Ancient Rome" made a strong appeal to him, especially the lay that tells the story of the Battle of Lake Regillus. The lay entitled "The Spaniard"—finished by another writer—also strongly attracted him. But a selection of Longfellow's poems given him by the Duchess of Connaught decidedly did not. "How do you like the book of poems I gave you?" the prince's grand-aunt asked him a little later. "I don't like it at all," was the frank reply. "I think they are dreadfully dull."

The prince began to read Kipling when he was twelve, and from that time Kipling has been his favorite author. Kipling is perhaps the only author whom he has ever quoted from memory.

Put On With Brush

"Gliding the lily" has been applied to peaches as a commercial proposition. It took the public some time to discover that the beautiful bloom on a great deal of fine looking fruit was put on with a brush. Complaints were made to the police but the police unofficially replied that their eyes weren't any better than those of customers who buy the fruit. The fraud squad has been instructed to stop the practice.

Prospecting At Smithers

A report received from Smithers, Central British Columbia, states that more actual new prospecting has taken place in that area during the past twelve months than in the preceding twelve years.

Father: "I am not at all pleased with this report from your teacher."

Youth: "I told her you wouldn't be dad, but she would send it. Just like a woman, isn't it?"

Advertising experts predict that the volume of newspaper advertising will increase 100 per cent. during the next ten years.

Mountaineers Fail Again

Towering Ice Wall Prevents Scaling Of Mount Robson

The great ice wall that guards the approach to the summit of Mount Robson turned back the two parties from the mountaineers of Seattle who sought to reach the peak, and another gallant failure must be added to the many that have been the lot of most Alpinists who have plied the strength and skill of man against the might of this giant peak of the Canadian Rockies.

The mountaineers admit their defeat, but in their losing fight against insuperable odds, they added another brilliant chapter to a history which is bright among the Alpine Clubs of the world.

On their ascent from the floor of the valley to the high camp, they fought a driving rain and low lying clouds which made progress difficult and dangerous. Higher than that they had to contend with sleet and later again, when the weather cleared, with snow that was often waist deep.

Over and through all these obstacles they struggled only to find their way finally and completely barred by the great ice cliff that threw a barricade across the only approach to the summit. More than eighty feet high, in some places a full hundred, this terrific wall of ice rose almost perpendicularly from the lower glacier.

There was no way up it, no way around. To make either attempt was to court instant death. There was nothing to do but retreat and leave the honors with the monarch of the Rockies.

For this year at least the battle of the mountaineers with Robson is over. It is a true one. Some other day they will come back until their colors of white on a background of green float from the silver turban of this giant of the north. Meanwhile they will content themselves with ascents of lesser peaks, the sentries the colossal Resplendent, Numm, Whitehorn and the other mountains that rise from this beautiful valley where millions of flowers of a million hues bloom even to the edge of the glaciers, and snow-capped peaks that girdle it meet with the skies in an eternal tryst.

Establishing Airplane Bases

Three Bases Will Be Completed At Early Date In Hudson Bay Strait Area

The Bay Rupert, the Hudson's Bay Company's ship which was on the the rocks off the Labrador coast, has been hauled off without serious damage and has continued her voyage. Radio messages to this effect were received recently by the marine department from the government steamship Beothic, which is carrying the airplane expedition north to the Straits.

The Beothic reported that the site of the first seaplane had been selected at a point near the northeast tip at Labrador at the eastern outlet of the Straits. Two of the six Fokker seaplanes will be left there with aviators and mechanics, a doctor and assistants.

The second base will be established midway up the Straits, and the third at the western end where the Straits join Hudson Bay. It is expected by the commander of the expedition, according to the radio messages, that the three bases will be completed within three weeks and flying operations will begin at once.

Queen's Jewels Priceless

Wonderful Gems Found On Mummy In Egyptian Tomb

Among recent important discoveries in Egypt, according to an Egyptian correspondent, is the finding in Egypt's western desert of a tomb containing the mummy of a woman, presumably a queen, covered with jewels of priceless description. Among these are eighteen bracelets of gold and silver, five necklaces in brilliant on her neck and a superhead crown studded with brilliants. Near the body were found other necklaces in sapphires and brilliants, also a statuette beautifully carved from porphyry. Hieroglyphics on the tomb indicate that the body is that of a princess who lived three thousand years ago, but it has not been possible yet to establish to what dynasty she belonged.

Boat Service Superior To Train

Crack de luxe trains in America are far superior to those in Europe, and yet train service has not kept pace with steamship service in the past 25 years. We had crack cannon-ball expresses 25 years ago when the transatlantic liners were rolling tubs. Today they are floating palaces. One never encounters impudent servants on first class liners, and that can not be said of first class trains.

You can save yourself lots of trouble by not borrowing it.

PAINTED FIRES

BY NELLIE L. McCLUNG

COPYRIGHT, CANADA, 1925

CHAPTER V.—Continued

Helmi sang as she did everything else, without the slightest trace of self-consciousness. She stood in the doorway with her hands behind her, and to the gray-haired ladies who listened she seemed like the embodiment of hope and youth and aspirations as she sang in her deep voice.

"Keep on sowing when you've missed your crops.
Keep on dancing when the fiddle stops.
Keep on faithful when the curtain drops.
And you'll get there in the morning!"

"Keep on trusting in the cause of right,
Keep on looking to the dawn of light,
Keep on fighting till you've won the fight.
And you'll get there in the morning."

CHAPTER VI

Helmi's lessons went on. She could answer the telephone an explain in concise English that "Miss Moore is away," or "Would you please wait one minute," followed by "Thank you very much."

"A civil tongue, Helmi," Miss Moore had told her, "may not take you as far as a pretty face, but it will take you along a safer road."

Helmi lived for the days she had her lesson. In the atmosphere of elegance and beauty she felt herself expanding like a Japanese water flower. Even the smell of her friend's house was luxurious. Miss Moore's house smelled of soap, clean clothes, moth balls, and soup with onions in it, pleasant enough, too, in its common, coarse way, but the Doctor's house smelled—Helmi could not find one word to describe it. She had noticed the same delicious odor in a shop in Helsinki before she sailed. It was of flowers in winter time, a

rich smell, with that impalpable hint of luxury which was so dear to Helmi's heart. Some days she rode in the car with her new friend, revelling in the soft gray plush cushions and the sparkling glass vase at the side, which the Doctor kept filled with fresh carnations. Even the floor of the car had a velvet carpet, and a light came on in the roof by merely pushing a button! Helmi tried to write a letter home telling about it, but in the hard working world at home, with its meagre vocabulary, there were no words to tell of such magnificence. There was only one word to cover it all, and it was English, and if she had written home the Finnish equivalent of that word, it would have misled people to think the car had sustained a bruise or had contracted mumps.

Helmi had to learn new words, for she was experiencing new thrills each day. Mrs. St. John took her once a week to the Moving Pictures Theatre, where Helmi sat spell-bound and dazzled. From the time she entered the enchanted place until she came out again into the sunshine she knew nothing of the real world. Watching the pictures she came up the aisle seeing no one, conscious of nothing, stumbling on the steps without knowing there was a step, or that she had stumbled, following her friend vaguely to a seat, and sitting perched on the edge until some indignant person behind her told her to sit down and let somebody else see, with an impatient "What is the matter with you, anyway?"

The world Helmi entered through the green plush doors, laid hold on her impressionable young heart. She saw lovely ladies in trailing beaded dresses and shining jewels, leaving their elegant homes to go with their lovers, and smart young stenographers wearing seal coats and hats they could clap on their heads and always look just grand, and who married the old man's wayward son and saved the old man's business from ruin by listening at the door when the bad men were plotting. Then and there Helmi determined she would be a stenographer.

Sometimes when riding on a street car Helmi would pick out some weather-beaten old business man with a beard whom she believed might be her future employer. It became her delight to give up her seat to such, rather to their discomfort. She felt it only right that she should pay them this little attention. She wondered greatly about the sons of these men—so much would depend on the son.

After that her teacher could not keep enough words ahead of her. Helmi kept a list of words pinned over the sink while she washed dishes, and in between her moments of attending to the real business of dish-washing she practised her sentences:

The lady is beautiful.
She has an elegant coat.
Will you go for a drive?
Have a chocolate?
I adore chocolates.

Miss Moore, who tried to help on the good work of Canadianizing this young person who had come to our shores, wrote on her sheet:—
"Honesty is the best policy."
"Civility costs nothing."
"Evil communications corrupt good manners."
And these Helmi faithfully copied, but they left her cold. Indeed, she told herself in good Canadian that Miss Moore's sentences were dumb-bells!

Further attendance at the pictures brought home another fundamental truth—the lovely lady is always forgiven—indeed, she can do no wrong. She may appear to do wrong, but someone else is really to blame. She found this to be true with the Doctor and his wife. The Doctor loved her even when she scolded him, pleaded with her when she pouted, laughed at her extravagance though pretending to be horrified, bore with all her moods and rages. Helmi knew it was because she was so beautiful. Everyone said the Doctor's wife was such a lovely lady.

No wonder Helmi now decided against stenography. She would be a lovely lady! And the words and sentences which appeared on the wall were flattered with this resolve.

Helmi was struggling with the lesson on the beaver, in the Third Reader. "He is an amphibious animal," she read, "living both on the land and in the water." She looked inquiringly at her teacher, whom she knew, without looking up, was regarding her intently.

"Pshaw, Helmi, a girl with eyes like yours doesn't need to know about amphibious animals. Close the book—that will do for today. I want to talk with you. Life is a dull place anyway—we have to take what thrills we can. I get a thrill out of you some way, you are so young and promising. Now, I am going to have a party. The Doctor is going East in a week. I have my parties when he is gone, because my parties and my friends bore him to tears. So we set the dates to suit. And besides his mother is coming to visit us soon, and I want something new. You're the newest thing I know, and so I want you at my party."

"I have no clothes," began Helmi, "for style party."
"Listen, Helmi, I have the clothes, closets full, and I know just how to dress you. You won't need to talk, so don't worry over your English. You'll be a young Finnish lady visiting Canada, the Prime Minister's niece, and my friends in Montreal asked me to look after you. Your father is a shipping broker, and you are on your way to Vancouver to join him. We'll fool them, and when they are all raving about you, and wanting to dance with you, in your delightful broken English you will beg them to excuse you—you are so tired. You will slip upstairs, change back into your maid's dress, and come down and help Manda to serve. Now, come and let me try on your clothes. You are going to be a symphony in green, Helmi—there's no color so dazzling as green. Mauve dreams, red raves, but green sings. You're to be a singing goddess!"

Helmi's eyes were dancing at the thought of such a thrilling adventure, and when in the region of enchantment upstairs in Mrs. St. John's room, the walls of which were of pale green brocade satin, the hangings of the same, and the rugs so plushy green, that they reminded her of the loveliest moss she had ever seen, she found herself looking into the glass at a beautiful girl in a creamy green clinging dress, silver slippers, jade earrings and necklace, a marvellous cloak a shade deeper than the dress, and lined with flame-colored satin that glimmered and shone. It was all just like a fairy story.

(To Be Continued)

World Reading Shakespeare

Library in England Has 20,000 Books In Different Languages

The Shakespeare Memorial Library at Birmingham, England, has nearly twenty thousand Shakespeare books, the largest collection in the world, and the library is a kind of index of the way Shakespeare is being read everywhere.

The demand for translations comes from all quarters of the globe and even in China they are reading Shakespeare increasingly.

Every new edition and every new translation is represented in the Birmingham Library, and in the last twelve months three hundred and twenty-two new volumes were added in thirteen languages.

Strange House In India

The strangest house in the world is probably one in Jeypore, India. Besides its peculiar architectural appearance it boasts of being a huge musical instrument. When the wind is blowing it produces beautiful notes. The material used in the structure was a porous stone of very light weight. The wind playing upon the various openings acts as if upon reeds.

"Feyther," said little Mickey, "wasn't it Patrick Henry that said 'let us have peace'?" "Niver," said old Mickey. "Nobody by the name of Patrick iver said anything like that."

It takes a very conscientious man to enjoy his work when the pay is small.

WRIGLEYS
JUICY FRUIT has the flavor of fresh, ripe fruits. It is beneficial too, cleansing mouth and teeth, soothing the throat and helping digestion.

After Every Meal

Aviator Had Narrow Escape

Frenchman Fell Headlong Nearly Four Miles Before Parachute Opened

After a headlong fall of nearly four miles through space, a French aviator, Jean van Laere, suffered merely from a rush of blood to his head caused by the dizzy drop.

Van Laere's parachute failed to open when he leaped from his plane at an altitude of 7,000 metres and remained shut until by some miraculous atmosphere shock it suddenly opened when he was 100 metres (about 330 feet) from the earth. The aviator's fall halted abruptly and he dropped gently down into a tree, in the forest of Carnelle, near Beaumont-sur-Oise, over which he had been flying.

Stunned by his long fall the aviator hung only half conscious in the branches of the tree for some time until he was discovered by members of the Forestry Service, who lowered him to the ground and carried him to their hut, where, after a couple of hours' rest, he regained lucidity and was able to give an account of his aerial adventure.

Van Laere was making a test flight from Villacoubly Flying Field. Flying over the field, he climbed to a height of 7,000 metres when his respirator for some reason stopped functioning. While choking in his efforts to adjust the respirator, Van Laere said, he lost control of the plane and decided he would have to jump to save himself. He succeeded in leaping clear with the parachute, but when it failed to open he believed that he would be killed.

"I am astonished to find myself alive," said the aviator.

The plane was found totally demolished and almost wholly buried under the ground a few hundred yards from the spot where the aviator landed.

Minard's Liniment for scaly scalp.

Airplanes Outdo the Birds

Able To Make Much Longer Non-Stop Flights

Factory-made wings have eclipsed the feathered species. Lindbergh's non-stop flight was 3,610 miles. The distance flown by Chamberlin and Levine is estimated from 3,900 to 4,400 miles. The longest non-stop flights of birds have been those of Alaskan plovers from the Aleutian Islands to Hawaii, a distance of 2,400 miles, and the annual migrations of golden plovers from Newfoundland and Nova Scotia to the Leeward Islands and the northeastern coast of South America, a distance of 1,700 to 2,200 miles.

A Modern Scarecrow

Radio has been introduced as the newest farm implement by Gustav Schmitz, owner of a large orchard near Hornburg, California. Despairing of saving his valuable harvest of apples and pears from a cloud of voracious sparrows, unmoved by ordinary scarecrows, he installed a loud speaker in the orchard, and, at the announcer's first words, the winged pests, fled, terrorized, never to return.

There is no objection to people's thinking what they like — just so their thinking isn't done out loud.

Hikers.
Take a bottle of Minard's in your kit bag. Relieves sore feet.

MINARD'S
"KING OF PAIN"
LINIMENT

Enlightened Red Men

Old Time Indian Chiefs Who Were Loyal To the Government

Western newspapers are liberal in their praise of Chief Thunderchild, who died on his reserve near Saskatoon a few days ago. He is said to have been the last of the old-time Chiefs, and as such signed one of the half-dozen treaties in the seventies by which the red man surrendered his prairie domain to the advancing whites.

Thunderchild illustrated how fortunate Canada has been in its relations with the aborigines. He was one of the Chiefs who refused to join Riel in the Rebellion of 1885, and remained loyal to the Government with which he had made a covenant a few years earlier. The organization of the Northwest Mounted Police in 1874 was a wise move by the Canadian Government, and the Indians soon learned the value of the force as a protecting agency for them.

Crowfoot, the wise Chief of the Blackfoot tribe, out near the foothills, expressed well the view of the enlightened Indian when he signed the Blackfoot Treaty in 1877. "If the police had not come to the country, where would we all be now?" he said. "Bad men and whiskey were killing us so fast that very few indeed of us would have been left today. The police have protected us as the feathers of a bird protect it from the frosts of winter."

Crowfoot, too, refused to join in the rebellion, and he welcomed the railway as the natural instrument of the white race which in the Canadian West had befriended the natives who had to give way to new conditions.—Toronto Globe.

Miller's Worm Powders are a prompt relief from the attacks of worms in children. They are powerful in their action and, while leaving nothing to be desired as a worm expellant, have an invigorating effect upon the youthful system, remedying fever, biliousness, loss of appetite, sleeplessness, and other ailments that follow disorders caused by worms in the stomach and bowels.

Gold Reserve Well Protected

Underground Vaults In Bank Of England Are Burglar Proof

Although workmen engaged on the new underground vaults of the Bank of England, where all of Great Britain's gold reserve will rest, are guarded from prying eyes by armed policemen, some details have leaked out regarding what is said to be the world's hardest job of safe cracking.

Underneath the present bank are concrete walls fifty feet deep and seven feet eight inches thick. If somebody with felonious intentions were to tunnel through these he would come into a passage patrolled by guards and protected by every known alarm system around all four sides of the treasure.

Once in this passage way the cracksmen would have to cut through double grills of steel. The next step approaching the swag of several hundreds of millions of dollars in gold would be to cut through doors of solid steel weighing 24 tons each. This would take oxy-acetylene drills, in the hands of experts at least three days. These doors can be swung with light pressure of one hand, if they are open. When they are locked it is different.

Recognized as a leading specific for the destruction of worms, Mother Graves' Worm Exterminator has proved a boon to suffering children everywhere. It seldom fails.

Something To Be Proud Of

Britain Holds Envyable Place In Long Distance Flying

The British record in long-distance flying is something to be proud of. We have to our credit the first conquest of the Atlantic both by airship and aeroplane, the long array of Empire flights by Sir Allan Cobham, and the magnificent non-stop attempt to India which synchronized with Colonel Lindbergh's Atlantic crossing. Yet to a great extent, because we are without the flair for self-advertisement which is a conspicuous possession of some other nation, Britain's reputation abroad is tending to become that of an indifferent performer in the air, and pessimistic critics at home are talking and writing as if we had fallen into a position of hopeless inferiority.

A Clerical Error

A clergyman who had given up his former position as a justice of the peace in order to enter the pulpit was conducting his first marriage service.

"Do you take this man to be thy wedded husband?" he asked the bride.

The bride answered eagerly: "I do."

"And you," he continued, addressing the bridegroom, "what have you to say in your defense?"

Preserving Fruits and Vegetables in the Home

RABBITS

Offered FREE by the Government

THESE two pamphlets, prepared from actual experience by Government experts, contain information of genuine value on any farm.

"Preserving Fruits and Vegetables in the Home" is a 44-page booklet particularly valuable at this time. It goes very thoroughly into every department of canning—fruits, vegetables, jams, jellies, pickles, etc. It discusses the various methods and makes many recommendations helpful towards better preserves and fewer spoilages. Contains 74 different recipes.

"Rabbits"—gives the real facts about this profitable farm side-line, mentioning particularly the popular Chinchilla. Explains the chances of money-making in meat and pelts—detailing carefully the best methods of housing, feeding, breeding, marketing, curing diseases and choosing breeds.

Over 500 other pamphlets on farming subjects are available. Write for the 1927 list. Fill in and mail this slip post free to:

Little Helps For This Week

Walk worthy of the Lord unto all pleasing, being fruitful in every good work.—Col. i. 10.

True worth is in being, not seeming. In doing each day that goes by. Some little good, not in dreaming. Of great things to do by and by.—Alice Cary.

Not what we think, but what we do, Makes saints of us.—Ibid.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe Or the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in using them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make teething easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Only Woman Tea Taster

There is a woman who tastes no fewer than 300 samples of tea every day. She is Miss Margaret Irving, and she enjoys the distinction of being the only woman tea-taster in Great Britain.

Minard's Liniment for cuts and bruises.

Husband: Well, thank the Lord the car is finally paid for.
Wife: Isn't it splendid! Now we can turn it in on a new one.

It takes a good artist or a good actor to draw a good house.

Diarrhoea Summer Complaint HE ALWAYS USES

Mr. T. F. McGregor, McLennan, Alta., writes:—"Over forty years ago my mother used to give us Dr. Fowler's Extract of Wild Strawberry for diarrhoea and summer complaint. All through the years since then when troubled with an excessive looseness of the bowels I have been accustomed to take a few doses of the same old, reliable remedy and it always seems to have the desired effect, no matter what the cause."

Don't Accept a Substitute
This valuable preparation has been on the market for the past 60 years; put up only by The T. Millburn Co., Limited, Toronto, Ont.

Latest Sheet Music, Gramophones, Records

We try to carry all the latest pieces of sheet music, but can give a very quick service on any piece required—at CITY PRICES. We sell also VICTOR GRAMOPHONES and RECORDS, and several kinds of musical instruments. Candies, Picnic Delicacies, Cigarette, Tobacco, Stationery, PATENT MEDICINES, Cosmetics and Toiletries.

Decoration Day Observed

The eighth annual Decoration Day service was conducted in Hazelwood cemetery on Sunday last by the M.S.A. Post of the Canadian Legion, about 200 persons attending. Rev. R. E. W. Bidwell and Rev. J. H. White made short addresses and lead in prayer. Kipling's "God of Our Fathers" was impressively sung. Union Jacks were laid over the graves of veterans of the great war, honoring the memory of James Downie, Chas. Courtman, G. E. Davis, G. Ker, Capt. Cornwall and Nursing-Sister Nines. The headstones had been banked with beautiful flowers, this thoughtful service having been rendered to several graves by Mr. and Mrs. J. Rowley.

ABBOTSFORD

Born—To Mr. and Mrs. George Tamboine, of Upper Sumas, on August 29 in the M.S.A. Hospital, a daughter.

Mrs. Joseph Okulitch underwent a minor operation in M.S.A. hospital this week.

Constable Ledoux left for Kamloops on Monday.

Mrs. Graham of New Westminster is guest of Mr. and Mrs. Sayce, Yale rd.

Abbotsford high school pupils who were prevented through sickness from taking their Entrance examinations recently have been busy writing them this week.

A large number of entries have been coming in to the Sumas Roundup officials from cow country ranges, and the little city is gradually taking on the appearance of a cow town in the palmy days of the wild and woolly. Ten gallon hats and high-heeled boots are much in evidence. Contestants are arriving every day, and if the weather man is kind the success of the roundup is assured.

What Is Advertising?

"Advertising is the education of the public as to what you are, where you are, and what you have to offer in the way of Skill, Talent or Commodity."

"The only man who should not advertise is the man who has nothing to offer the world in the way of Commodity or Expert Service."

—Elbert Hubbard

SYNOPSIS OF LAND ACT AMENDMENTS

PRE-EMPTIONS

Vacant, unreserved, surveyed Crown lands may be pre-empted by British subjects over 18 years of age, and by aliens on declaring intention to become British subjects, conditional upon residence, occupation, and improvement for agricultural purposes.

Full information concerning regulations regarding pre-emption is given in Bulletin No. 1, Land Series, "How to Pre-empt Land" copies of which can be obtained free of charge by addressing the Department of Lands, Victoria, B.C., or to any Government Agent.

Records will be granted covering only land suitable for agricultural purposes, and which is not timber-land, i.e., carrying over 8,000 board feet per acre west of the Coast Range and 5,000 feet per acre east of that Range.

Applications for pre-emption are to be addressed to the Land Commissioner of the Land Recording Division, in which the land applied for is situated, and are made on printed forms, copies of which can be obtained from the Land Commissioner.

Pre-emption must be occupied for five years and improvements made to value of \$10 per acre, including clearing and cultivating at least five acres, before a Crown Grant can be received.

For more detailed information see the Bulletin "How to Pre-empt Land"

PURCHASE

Applications are received for purchase of vacant and unreserved Crown lands, not being timberland, for agricultural purposes; minimum price for high-class (arable) land is \$5 per acre, and second-class (grazing) land \$2.50 per acre. Further information regarding purchase or lease of Crown lands is given in Bulletin No. 10, Land Series, "Purchase and Lease of Crown Lands."

Mill, factory, or industrial sites on timber land, not exceeding 40 acres, may be purchased or leased, the conditions including payment of stumpage

HOMESITE LEASES

Unsurveyed areas, not exceeding 20 acres, may be leased as homesites, conditional upon a dwelling being erected in the first year, title being obtainable after residence and improvement conditions are fulfilled and land has been surveyed.

LEASES

For grazing and industrial purposes areas not exceeding 640 acres may be leased by one person or a company.

GRAZING

Under the Grazing Act the Province is divided into grazing districts, and the range administered under a Grazing Commissioner. Annual grazing permits are issued based on numbers ranged, priority being given to established owners. Stock-owners may form associations for range management. Free, or partly free, permits are available for settlers, campers and travellers up to ten head.

CLAYBURN

Col. and Mrs. T. Aldworth, and three children, of Armstrong, B. C., have returned home after visiting the last month at the home of Mrs. Aldworth's sister, Mrs. T. Z. Wilson. Before joining up in the war Col. Aldworth was principal of the Ridgedale school. He met many of his late pupils, and also many comrades who were with him in the same battalion in France.

Mr. and Mrs. A. Morris and two sons, Ian and Neil, of Edmonton, have been visiting the last two months at the home of Mrs. Morris' mother, Mrs. Stiven. They left Sunday.

Mr. L. G. Seldon of Vancouver is visiting at the home of his brother, Mr. T. F. Seldon.

Miss C. Gillies has returned from Seattle, where she has been spending a vacation.

Mr. H. Gillies of Longview, Wash., has been visiting at the home of his parents, Mr. and Mrs. K. Gillies.

Mrs. Virtue and son Jim are spending a vacation camping on the hills.

Mr. Arthur Bullock, Mr. Matthews, Mrs. Heads, Miss Betty Clark and Mr. J. D. Clark motored to Boston Bar on August 20, returning home the following day.

Mrs. Finney and son Ralph of California, formerly of Clayburn, have been spending a vacation here, the guests of Mr. and Mrs. Brooks.

Mrs. F. McGillivray of Vancouver (nee Miss Phillipine) has been a house guest of Mrs. G. Robinson and Miss K. Robinson.

Mrs. H. Hill sr., is spending a vacation in Bellingham.

Pat Bailey, son of Mr. and Mrs. J. Bailey, has returned home from St. Paul's hospital, where he has been undergoing an operation for mastoid.

For Sale—206 acres, mostly good valley land, 15 acres cultivated; make a good mixed farm; creek on place, close to good road; six-room house, small barn, poultry building; \$27 an acre; stock extra. Chas. Keeping, Kilgard.

LOST—On Chilliwack road, between Sumas Prairie and Aldergrove on Sunday evening, August 21, large carton of blankets and towels; reward. Frank Hart, 205 Dominion Bank Building, Vancouver, B.C.; Sey. 7085 or Doug. 3622L.

FREE TRANSPORTATION to Hopfields. O. K. Transfer & Taxi, A. Becroft.

Wanted—Students, Room and Board Mrs. I. Duncan, 2544 Columbia St. Vancouver, B.C.

The Kitchen Craft Waterless Cooker saves fuel, labor, flavoring and vital food values (vitamines). Ask for a demonstration. F. G. Cook, agent.

800 Laying Hens for Sale. \$1 each. J. FRITH, Abbotsford.

For Sale—Baled Clover Hay, about 25 tons. Might trade for young stock of cows. E. Bailey, Upper Sumas P.O. or phone (Farmers) co. Porter's store.

GOOD FORD SEDAN FOR SALE at a Sacrifice Price
If you want a cheap car and mean business call at the News Office.

For Sale—7-year-old Black Gelding; also light wagon. J. H. Bury, Abbotsfd.

Flexi motorcycle sidecar for sale, \$10. The chassis is good and sound, and will fit Excelsior or Harley. Worth at least five times the price. The first ten spot takes it. News office.

Prize lists for the Sumas exhibition are now being printed at this office. The booklet will contain a thoroughly representative list of prizes, in cash or its equivalent, including more than 200 regular classes, with numerous specials. Noteworthy among the specials will be: a silver medal, by H. J. Barber, for the best collection of cut flowers; a bronze medal, by Royal Bank, for best bull in show; a president's prize of \$10 for best collection of field and garden products, fruit, honey, etc.; and a prize by Weir's Garage for the oldest car driven onto the grounds.

Ninety-nine members of Poplar Sunday School enjoyed a dip in the briny at Cottonwood Beach recently, on the occasion of the community picnic.

A special meeting of the Men's Club was held Monday night to discuss plans for the coming winter, and to listen to a talk by Mr. F. S. Dickinson of Vancouver, which was much enjoyed. The annual meeting will be held Monday, Sept. 12th. Mr. Dickinson has started a class in public speaking and several club members and others are enrolled.

The Royal Bank of Canada has installed the Farmers' Telephone in their branch office here for the convenience of their customers and friends located on Sumas Prairie.

This is another link in connecting up our town with the development of this fertile area. Advt.
